

## PROJECT 10073 RECORD

1. DATE - TIME GROUP 27 June 66 28/0515Z	2. LOCATION Boothville, Louisiana multiple
3. SOURCE Civilian	10. CONCLUSION Aircraft (possible)
4. NUMBER OF OBJECTS one	
5. LENGTH OF OBSERVATION 5 minutes	11. BRIEF SUMMARY AND ANALYSIS Observers noted bright white colored object that was traveling toward the NW. The object blinked until it came to a standstill, then the light stayed on, until beyond stars, or end of sight. The light was equal to three night lights. The object looked like an enormous revolving or blinking white shining star, with some sort of a tail. The observers have reported similar sightings since June 1966. In all cases it appears that merely lights in the sky were witnessed. On this particular observation it appears that an aircraft was observed. The description is consistent with that of an aircraft observation.
6. TYPE OF OBSERVATION Ground Visual	
7. COURSE NW	
8. PHOTOS <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
9. PHYSICAL EVIDENCE <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight - pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- a. Solid
- b. Transparent
- c. Vapor
- d. As a light
- e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- a. Brighter
- b. Dimmer
- c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

*The light was equal to 3 night lights.*

12. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
  - b. Like a bright star
  - c. Sharply outlined
  - d. Don't remember

e. Other

*Due to the night hours, the edges weren't clear and the light dominated most of the craft.*

13. Did the object:

(Circle One for each question)

- |   |            |           |            |
|---|------------|-----------|------------|
| a. Appear to stand still at any time?           | <u>Yes</u> | No        | Don't know |
| b. Suddenly speed up and rush away at any time? | <u>Yes</u> | No        | Don't know |
| c. Break up into parts or explode?              | Yes        | <u>No</u> | Don't know |
| d. Give off smoke?                              | Yes        | <u>No</u> | Don't know |
| e. Change brightness?                           | Yes        | <u>No</u> | Don't know |
| f. Change shape?                                | Yes        | <u>No</u> | Don't know |
| g. Flash or flicker?                            | Yes        | <u>No</u> | Don't know |
| h. Disappear and reappear?                      | Yes        | <u>No</u> | Don't know |

*It blinked until it came to a standstill, then the light stayed on, until beyond the*

20. Do you think you can estimate the speed of the object?

(Circle One)

☒ Yes

No

IF you answered YES, then what speed would you estimate?

*(Terrific Speed)*

*It was cruising about 30 to 40 m.p.h. until it stopped, and then it jetted up to the stars, and was out of sight within 3 to 4 min.*

21. Do you think you can estimate how far away from you the object was?

(Circle One)

☒ Yes

No

IF you answered YES, then how far away would you say it was?

*The object was 2 acres away, and traveled at an angle over my home. Straight up.*

22. Where were you located when you saw the object?

(Circle One):

a. Inside a building

b. In a car

☒ c. Outdoors

d. In an airplane (type)

e. At sea

f. Other

23. Were you (Circle One)

a. In the business section of a city?

b. In the residential section of a city?

☒ c. In open countryside?

d. Near an airfield?

e. Flying over a city?

f. Flying over open country?

g. Other

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North

c. East

e. South

g. West

b. Northeast

d. Southeast

f. Southwest

h. Northwest

24.2 How fast were you moving? \_\_\_\_\_ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One)

Yes

No

*NO*

25. Did you observe the object through any of the following?

a. Eyeglasses

Yes

☒ No

b. Sun glasses

Yes

☒ No

c. Windshield

Yes

☒ No

d. Window glass

Yes

☒ No

e. Binoculars

Yes

☒ No

f. Telescope

Yes

☒ No

g. Theodolite

Yes

☒ No

h. Other

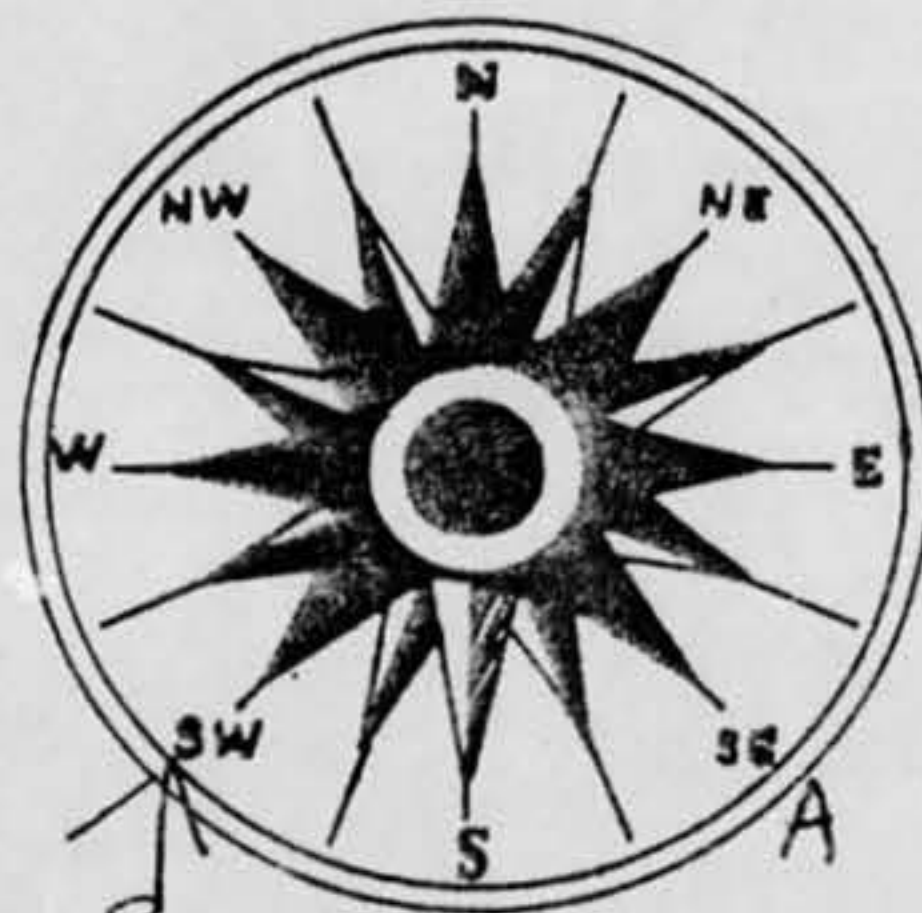

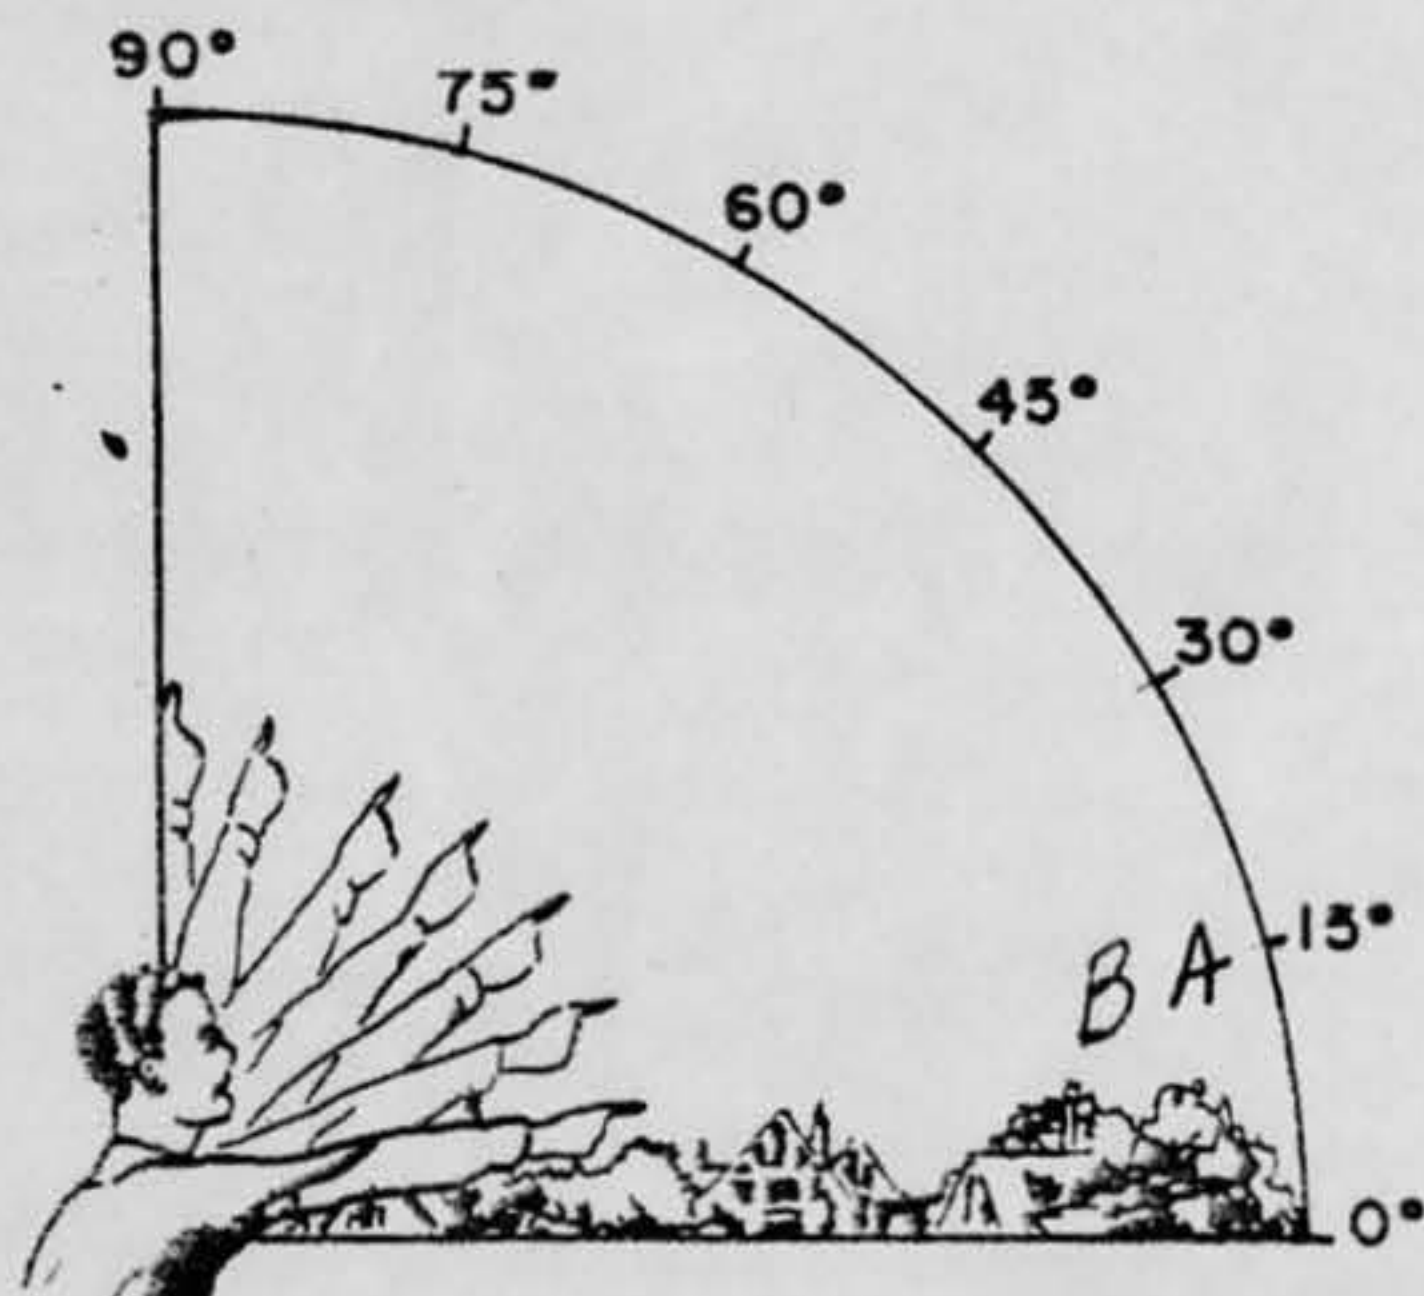

*Naked eyes.*

*NO*

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

*The object looked like an enormous, revolving, or blinking white shining star, with some sort of a trail or a tail.*

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

We saw it go straight up.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

*A would start 1 1/2 mi. SE of the motel.*

*BLINKED, STOPPED and kept light on, all the way up. It zig-zagged in the stars.*  
*my husband saw it coming from a 1/2 mi. distance.*

*MOTEL TREES FIELD OUR HOUSE*

29. IF there was MORE THAN ONE object, then how many were there? *This was a specific of*  
 Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

*Note comments*

*~~papers~~ enclosed.*

*on last pages.*

*for*

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

*This thing could have been shot at, it was so low, and so close to us. This was something we have never seen before.*

31. Was anyone else with you at the time you saw the object? (Circle One)

☒ Yes

☐ No

31.1 IF you answered YES, did they see the object too? (Circle One)

☒ Yes

☐ No

31.2 Please list their names and addresses:

*My husband saw the object first, and then called for me to come see.*  
*Mr and Mrs. [REDACTED]*

32. Please give the following information about yourself.

NAME

Last Name

First Name

Middle Name

ADDRESS

Street

City

Zone

State

TELEPHONE NUMBER

AGE

SEX

*[REDACTED]* *Buras* *4* *La.*  
*[REDACTED]* *34* *Male*

*70041*

Indicate any additional information about yourself, including any special experience, which might be pertinent.

*I'm familiar with weather balloons, aircraft and etc.*  
*Leander was in the Coast Guard in 1951 thru 1955.*

33. When and to whom did you report that you had seen the object?

*28*  
Day

*June*  
Month

*1966*  
Year

*I called the Police force the next morning -*

I have reason to believe that the tall Cable T.V. tower, may have some attraction to these other objects that we have seen.

We don't just look for these things, they just happen to draw our attention. We are not positive about these other 4 U.F.O.'s, but we are positive the June 27th U.F.O. was one.

I'm also sure that with a large spot light these other ~~of~~ objects could be seen better.

We are also sure that these things know when we're looking at them, because they soon put the light off.

Please inform us on the possibility of the other 4 objects.

Perhaps an observatory could be effective. Thanks, Mrs. [REDACTED]

34. Date you completed this questionnaire:

Oct.

1966

Day

Month

Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

I can positively say that this object was a craft of some kind.

Since this sighting, we, and some relatives, have noticed a specific path of another U.F.O traveling out of the North<sup>WEST</sup> to the SE. We have seen this happen between the hours of 6:45pm. to 8:30pm.

It has the characteristics as follows:

It's a bright white light traveling about 40 mph. and around 400 feet over the Miss. River. It travels past a tall cable T.V. tower, then it changes to a red light. Then after seeing it for awhile, it turns the light off. This was proven by me calling my Mom and Dad who lives  $\frac{3}{4}$  mi. below us. They run out to see it do these things! We have seen 4 travel on the same path, and do the same things. (over) (SEE DIAGRAM ENCLOSED)

10-29-66

Dear Sir:

Perhaps you would be interested  
in these drawings of the U.F.O. we saw,  
plus the other strange objects we saw.  
I won't call the other objects U.F.O's.  
only because they were far away.

I thought these drawings  
would help you, as I keep a  
record of all the weird sightings  
we have seen.

Yours Truly,  
Mrs. [REDACTED]

# U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

<p>1. When did you see the object?</p> <p style="text-align: center; font-size: 1.2em;"> <u>27th</u>   <u>June</u>   <u>1966</u>  <small>Day                      Month                      Year</small> </p>	<p>2. Time of day: <u>11</u> : <u>15</u>  <small>Hour                      Minutes</small></p> <p>(Circle One):      A.M.      or      <u>P.M.</u></p>
<p>3. Time Zone:</p> <div style="display: flex; justify-content: space-between;"> <div style="width: 45%;"> <p>(Circle One): a. Eastern  <u>b. Central</u>  c. Mountain  d. Pacific  e. Other _____</p> </div> <div style="width: 45%;"> <p>(Circle One): a. Daylight Saving  b. Standard</p> </div> </div>	
<p>4. Where were you when you saw the object?</p> <div style="display: flex; justify-content: space-between;"> <div style="width: 30%;"> <p><u>Boothville P.O.</u>  <small>Nearest Postal Address</small></p> </div> <div style="width: 30%;"> <p><u>Boothville</u>  <small>City or Town</small></p> </div> <div style="width: 30%;"> <p><u>La.</u>  <small>State or County</small></p> </div> </div>	
<p>5. How long was object in sight? (Total Duration)      <u>5</u>  <small>Hours                      Minutes                      Seconds</small></p> <p>a. Certain                      c. Not very sure  <u>b. Fairly certain</u>                      d. Just a guess</p> <p>5.1 How was time in sight determined? <u>Looked at the clock and determined.</u></p> <p>5.2 Was object in sight continuously?      Yes <u>✓</u>      No _____</p>	
<p>6. What was the condition of the sky?</p> <div style="display: flex; justify-content: space-around;"> <div style="text-align: center;"> <p>DAY</p> <p>a. Bright  b. Cloudy</p> </div> <div style="text-align: center;"> <p>NIGHT</p> <p><u>a. Bright</u>  b. Cloudy</p> </div> </div>	
<p>7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?</p> <p>(Circle One): a. In front of you      d. To your left  b. In back of you      e. Overhead  c. To your right      f. Don't remember      <u>NO</u></p>	

14. Did the object disappear while you were watching it? If so, how?

*Only when it went beyond  
the stars did it go out of  
sight.*

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

Yes

☒ No

Don't Know.

IF you answered YES, then tell what

it moved behind: \_\_\_\_\_

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

Yes

☒ No

Don't Know.

IF you answered YES, then tell what

in front of: \_\_\_\_\_

17. Tell in a few words the following things about the object:

a. Sound *No sound at all!*

b. Color *Bright white*

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

*It would have covered a small portion  
of the object while it was at a low  
altitude. (Approx. 300 feet above the ground.)*

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

*The object was lighted up.  
It was obvious to see  
it was some kind of a  
craft.  
a faint tail in the back or vapor trail.*

*Moving from SE to NW  
stars, or out of sight.*
